Update to MacLean's DIXIE350 Foundation Repair Brackets

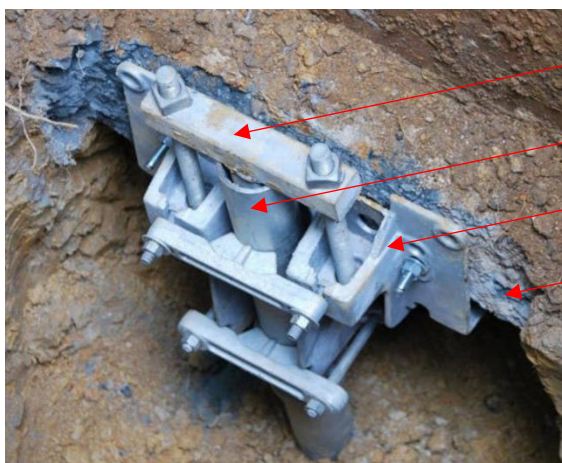

In order to better serve the ever-changing industry of residential foundation repair/remediation, MacLean Civil Products is proud to announce the following improvements to our product offering:

DIXIE350 Underpinning Brackets and T-Pipe Assemblies will now be sold separately. This provides you significant flexibility to order and stock the universal brackets and pile specific T-Pipes to best fit the demands of your local market.

Updated Product Offering
